SUMMARY

Full-Stack Developer with hands-on experience building scalable web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Strong foundation in Java with Data Structures and Algorithms. Passionate about solving complex problems, optimizing application performance, and delivering reliable software solutions.

SKILLS

- | | |
|--------------------------------|--|
| • Programming | Java, , JavaScript |
| • Frontend Development | HTML, CSS, React.js, Next.js, Tailwind CSS |
| • Backend Development | Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.io |
| • Databases | MongoDB, PostgreSQL |
| • Tools & Platforms | Git, GitHub, Docker, Postman, VS Code, IntelliJ IDEA |

TECHNICAL PROJECTS

Student Management Portal Next.js, MongoDB, Socket.io, Tailwind CSS, NextAuth.js

- Architected a role-based academic management platform supporting students, faculty, and administrators with secure authentication and authorization protocols.
- Integrated real-time messaging and notification systems using Socket.io, facilitating seamless and instant communication across all user groups.
- Automated PDF report generation, project tracking, and Excel/CSV data management to streamline complex administrative workflows and reduce manual overhead.
- Configured Cloudinary-based file storage and optimized media handling, establishing a scalable document management system for academic records.

FleetFlow Node.js, Express.js, MongoDB, React.js, Socket.io, Docker

- Built a comprehensive logistics management platform incorporating advanced access control and JWT authentication to ensure secure fleet operations.
- Engineered real-time vehicle dispatch and tracking features utilizing Socket.io, enabling continuous status updates and live monitoring.
- Created dynamic analytics dashboards to evaluate fleet utilization, track operational performance, and optimize resource allocation.
- Containerized application services using Docker, accelerating the deployment process and ensuring consistent development environments.

EXPERIENCE

Full-Stack Developer Trainee | CodSoft Apr 2025 – Jun 2025

- Developed and launched responsive web applications using HTML5, CSS3, JavaScript, and React.js, ensuring flawless cross-device compatibility and modern UI/UX design.
- Constructed and integrated robust RESTful API endpoints utilizing Node.js, Express.js, and MongoDB to facilitate efficient client-server data exchange.
- Established JWT-based authentication and granular permission mechanisms, safeguarding user accounts and protecting sensitive application resources.
- Tested and debugged APIs extensively via Postman, actively identifying and resolving backend issues to maintain high application reliability and uptime.

EDUCATION

B.Tech in Information Technology	2024 – 2027
CHARUSAT University, Anand	Current SGPA: 8.27
Diploma in Engineering	2021 – 2024
Government Polytechnic, Ahmedabad	CGPA: 8.80

ACHIEVEMENTS & CERTIFICATIONS

- Solved 300+ coding problems across Data Structures and Algorithms, strengthening analytical problem-solving skills.
- Completed Cloud Computing certification through NPTEL.
- Earned a Google Cloud Certificate.
- Participated in the New India Vibrant Hackathon.
